PerfecPunch & Stand

THB1650 per piece

Creating the perfect punch blades took four years of constant development by Rod to fully accomplish his lofty goals of punch blades that have razor blade-like sharpness, a wall thickness as thin as only two sheets of standard copy paper, an edge sharpness angle of only 18° compared to the average of 40° of common punch blades, and an extreme metal hardness to maintain the exceptional sharpness even after a couple decades of daily use. And possibly most importantly, there is no sharpening bevel on the outside rim of the blades – therefore zero outward force to crack your cigar cap on the head of your cigar!

The result when using the PerfecPunch is a precise, laser-like punch cut with exactly the ideal diameter for the particular cigar you are smoking; zero damage to the cap and wrapper of your cigar; and the relaxed, comfortable feel of the smooth, rounded shoulder around the head of your cigar.

60 gram humidity bag 72%RH

THB150 per piece

60-GRAM HUMIDITY BAG
